

THE PROCESS

- After your event, place your flowers in a vase filled with fresh, cool water. There's no need for refrigeration; just ensure the flowers are kept at a moderate temperature, avoiding extremes of heat or cold.
- Bring your bouquet to us! We have two drop-off locations: Tempe and Ahwatukee. Please let us know what time you'll be arriving for confirmation. We also offer pickup in Maricopa County for a fee of \$50.
- Ideally, we would like to receive the flowers within 2 to 4 days.
- While we can work with flowers in any condition, their state will influence the final outcome.
- Please allow 4 to 8 months for processing.
- A deposit of \$100 is required. We accept Venmo, Zelle, and cash.
- If your event has already taken place, no worries! We welcome last-minute orders! For the quickest service, start by texting us a picture of your bouquet or give us a call at 480-910-0045.

Lasting Beauty

- The flowers may change during the preservation or pressing process. Resin can cause petals to become transparent, so feel free to ask for more details.
- We treat all flowers with a UV protectant to help minimize fading. However, over time, colors may naturally fade due to factors like sunlight exposure, air quality, and temperature fluctuations.
- For optimal results, display your keepsake away from direct sunlight to reduce color fading. If you're interested, we can provide a quote for UV art glass to replace the glass in your frame or shadow box for \$60 or less.
